

The El Capitan and Super Chief

Revisit the golden age of The Atchison, Topeka & Santa Fe with the latest releases of

the "El Capitan" and "Super Chief" Classic Name Train sets from Kato USA! Painstakingly reproduced from original drawings, photographs, and live samples of surviving cars, these sets capture these trains in miniature in a way that is designed to excite the senses and bring memories flooding back - whether they're of the luxurious accommodations of the *Super Chief's* first class sleepers, the unprecedented view of passing scenery from the upper deck of the *El Capitan's* double decker lounge, or the sight of a combined *Chief's* polished corrugated steel car bodies glinting in the midday sun as it streaked by.

Reunited Once Again

Available in base and add-on sets, both the Santa Fe Super Chief and El Capitan are available to be pulled by Santa Fe's distinctive red "Warbonnet" F7A and F3 locomotives, and can be operated separately to depict 1930's consists or together as a joined train, as they ran in the late 50's.
