

Gunderson MAXI-I and MAXI-IV Double Stack Well Cars

~ Intermodal Excellence for 40' and 53' Container trains ~

A new generation of Intermodal cars is here! From Kato USA comes an all new style of double stack well car, the **Gunderson MAXI-I**. Alongside the latest productions of 53' MAXI-IVs, the 40' MAXI-I 5-unit well car boasts a longer overall length and a possible payload of 10 magnetic intermodal containers (included).

The newly tooled 40' Magnetic NYK containers can be intermixed with existing 53' containers in your intermodal fleets; thanks to the standardized mounting posts and magnetic plates, 40' containers can be loaded onto MAXI-IVs while 53' containers can be loaded onto MAXI-I's in the top position, allowing you to mix and mingle your container trains for a diverse look.

NEW! N Gunderson MAXI-I BNSF "Swoosh"
