

New Announcement

New Announcement

**EMD F40PH Phase III “pre-ditch light” Version**  
Three new road number releases

**Announced 10/6/2017**

**DC (Analog) Versions Shipping end of February 2018**  
**DCC Versions shipping end of March 2018**

This February, Kato USA will be re-issuing the **EMD F40PH** in its original “as built” form for Amtrak, in order to match the newly announced re-release of **Amtrak Amfleet II Phase III cars!**

In addition, this new run of locomotives will be available in both DC (Analog) and DCC variations through standard distribution, making it easier than ever to put this modern day workhorse into service on your layout!

Delivery for the Analog versions will be in February with the DCC versions following one month after. Keep an eye on the Kato website ([www.katousa.com](http://www.katousa.com)) for up-to-date information as it becomes available!
